

In partnership with FrameWorks IoT, McHugh Furnishings is proud to bring intelligent storage to healthcare spaces.

- Medication & Controlled Substance Compliance
- Document Exchange
- Asset Tracking
- Personnel Smart Lockers

Access Controlled

- Control openings remotely and get real-time data on staff or patient usage.
- Remotely monitor medication and tool distribution and return.
- Allow patient and staff reservation of locker openings.
- Track and exchange important assets like equipment, pharmaceuticals, and documents.

Contactless Usage

- Use phone or web browser to reserve or access a locker.
- Develop contactless distribution to limit human-to-human contact.
- Scale up lockers at any time - setting distanced pods where needed.
- RFID, Biometric, Barcode & PIN access.

High-End & Durable Materials

- Anti-microbial coatings for assistance with hygiene protocols.
- Ultra-tough welded steel bodies with flexible door materials.
- Interact with doors made from your choice of laminate, phenolic, high-density plastic, or clear polycarbonate.
- Build the perfect locker for your space - completely modular & flexible.
